American Indian Environmental Office

Weekly Report for April 22-26, 2013

Issues of Note:

**Nonresponsive**

# Nonresponsive

**Tribal Delegations:** With numerous activities involving tribes going on in Washington and Capitol Hill, a number of tribal delegations visited EPA this week to meet with the Acting Administrator, various EPA programs and AIEO:

## **Bristol Bay Native Corporation**

On April 22, seven board members from the Bristol Bay Native Corporation in Alaska, along with over a dozen representatives from sportsmen, fisherman, and tourist organizations from the Bristol Bay region, met with Acting Administrator Perciasepe, AA DePass, Director Chase, and other EPA senior leadership to discuss the proposed Pebble Mine project. The Native Corporation is officially opposed to the project, and, in an unprecedented move, has joined forces with local sportsmen and fisherman organizations in a campaign to stop the project. For more information on the Corporation, visit their website at: <http://www.bbnc.net/>
